

Please memorize the following prior to camp. These actions are fundamental to the safe handling of firearms and will be explained in detail during training. If you memorize them prior to camp it will make the learning of the concepts much easier.

#### Four Vital "ACTS" of Firearm Safety

Assume every firearm is loaded.

Control the muzzle direction at all times.

Trigger finger must be off the trigger and out of the trigger guard.

See the firearm is unloaded and "PROVE" it safe.

Point the firearm in the safest available direction.

Remove all cartridges.

Observe the chamber.

Verify the feeding path.

Examine the bore.
